

Dear Parents & Carers of Reception children.

Further to the information sent out regarding milk for your child, please see the information below which should clarify the process.

For children who are already 5 or turning 5 between now and Easter - you will need to register and order milk before 13 December 2019 to enable orders to be processed for the Spring term.

For children who will be turning 5 during the Summer term - you will need to register and order by 3 April 2020.

For under 5's you will need to select the late payment start date on the children's details tab so that you are only charged from the week your child turns 5.

Milk for under 5's will be ordered if you have already told us that you wish your child to receive it. Please advise us of any change.
