To make sure we stay safe online we follow these rules:

- **Always** keep personal information such as your birthday or address private online.
- **Always** make sure you only connect with your real friends online and do not arrange to meet anyone online.
- **Always** check with an adult before opening an email or message, even ones from a friend as they could contain a virus.
- **Always** double check things you read on the internet, not everything online is a fact.
